SUMMARY

Aspiring Data Analyst, Machine Learning Enthusiast, and Full Stack Developer pursuing B.Tech in AI & ML at ITM University Gwalior. Experienced in Data Analytics, Dashboard Development, MERN Stack Applications, EDA, and Machine Learning projects with hands-on exposure to Power BI, Tableau, Python, and real-world software development.

SKILLS

Data Analytics: EDA, Data Cleaning, Data Visualization, Dashboard Development, Business Insights

Machine Learning: Data Preprocessing, Model Training, Feature Engineering, Image Processing

Tools & Platforms: Power BI, Tableau, Excel, Git/GitHub, VS Code

Programming Languages: Python, SQL, JavaScript, Java

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, OpenCV

Web Development: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

Concepts: Data Structures & Algorithms, Problem Solving, Debugging

EDUCATION

2024 – 2028 B.Tech CSE (AI/ML) at **ITM University Gwalior**

2024 Class 12th – Noel Public School, Gwalior (84%)

2022 Class 10th – Amrita Convent H.S School, Gwalior (91%)

EXPERIENCE

Project Management Intern – PN Infosys Oct 2025 – Present

Gwalior, Madhya Pradesh, India — Hybrid Internship

- Worked on Data Analytics, Dashboard Development, and MERN stack applications
- Assisted in backend API integration, project planning, and business reporting
- Gained hands-on experience with Power BI, Tableau, and full-stack development

PROJECTS

EDA & Business Insights Dashboard — Python + Power BI

- Performed data cleaning, preprocessing, and refinement using Python
- Utilized Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn for analysis and visualization
- Developed interactive Power BI dashboard for executive reporting and business insights

COVID-19 X-Ray Analysis — Machine Learning

- Developed CNN-based machine learning model for COVID-19 detection from chest X-ray images
- Performed image preprocessing, dataset cleaning, and model training using Python
- Utilized OpenCV, TensorFlow, NumPy, Pandas, and Matplotlib for analysis and visualization

Smart Parking System — MERN Stack + DAA

- Built MERN-based parking management system with FCFS slot allocation
- Implemented barcode scanning and real-time parking tracking system
- Added PDF receipt generation and automated email notifications

ACHIEVEMENTS

- Deloitte Australia – Data Analytics Job Simulation (Forage)
- Tata – GenAI Powered Data Analytics Job Simulation (Forage)
- AWS – Solutions Architecture Job Simulation (Forage)
- Smart India Hackathon Participant
- Java Full Stack Certification – EduSkills Academy
- Data Structures & Algorithms – Infosys Springboard
